Q&A

What are your most popular products or services?

The most popular service at UBL is hair removal, combined with high-quality skin care products. Clients are always coming back for a fresh anti-aging treatment as well.

What tip would you give women who are starting a business?

Business is an exciting yet nerve-racking experience. A constant understanding of the numbers as well as a broad perspective in which to view your accomplishments and failures are helpful.

What is your favourite part about owning a small business?

The interactions with clients and the ability to make the necessary changes to keep them happy—these are a few things I enjoy the most.
